OUR VISION

To play a vital, enabling role in expediting patient-centred clinical trials that help make global medical breakthroughs happen.

Our people, our tech-enabled platforms, our tailored services – they all combine to deliver exceptional clinical trial recruitment and management outcomes.

We efficiently and accurately connect a diverse range of trial participants, researchers and clinicians, delivering an optimum clinical trial recruitment and management experience.

Evrima's purpose-built, designed and owned suite of products and services are reimagining clinical trial recruitment around the world.

Trial participants, doctors, and people involved in sponsoring and administering critical clinical trials – the entire clinical trial community, can benefit from the better user experience that Evrima delivers.

" We're enabling and expediting the clinical trial process – together."

OUR MISSION

To deliver potentially life-changing outcomes by connecting participants with the right clinical trials for them. We partner proactively with the global medical community for better health outcomes.

**The clinical trial
process is better
with Evrima –
for everybody**

OUR PRODUCTS

•-evriquest

Clinical Trial Recruitment Services

- Vital clinical trials need the right participants, at the right time. Evriquest services support the efficient and accurate recruitment and on-boarding of diverse trial participants with tailored options reflective of specific clinical trial objectives and targets.

•-evripath

Clinical Trial Search Tool

- Your patient's health and well-being is your priority. Help them access potentially life-changing clinical trials. The Evripath search tool empowers GPs and healthcare professionals to connect their patients with clinical trials that could deliver life-changing benefits to them.

•-evrilink

Clinical Trial Recruitment Platform

- An efficient, streamlined clinical trial experience, for everybody. Clinical trial teams and sponsors gain valuable, real-time data relating to their trial via the secure Evrilink dashboard. Our patient-focused, tech-enabled workflow processes provide an exceptional trial participant experience.

Our Industry Experience

We have in-depth experience in recruiting for clinical trials in various therapeutic areas across Australia and New Zealand.

- Audiology
- Cardiovascular
- Dermatology
- Endocrinology
- Gastroenterology
- Healthy Volunteer
- Infectious Diseases
- Mental health
- Neurology
- Osteoarthritis
- Oncology
- Pain
- Respiratory
- Rheumatology
- Women's health

What Our Clients and Partners Say

"Evrima has been extremely proactive and thorough in finding suitable patients for our clinical trial. Communication has been excellent, and I would definitely recommend them if you are looking to boost your recruitment in your study. Money well spent!"

– Project manager, leading Asia-Pacific CRO
